

WITH SIMPLE, ROBUST
AND CLEAN AESTHETICS,
TIMBER IS A MATERIAL THAT
WEATHERS BEAUTIFULLY

INDOOR
PLANTS

Move them to a position that gives them plenty of sun in the winter and decrease the watering of your indoor plants by at least half.

CURATED LIGHTING
ALLOWS YOU TO ENJOY
THE GARDEN, EVEN ON
THE COLDEST OF NIGHTS

DIY TIP

Look at what's working in your local area such as council gardens. What plants do they use in medium strips or council parks? What plants are flourishing without a lot of care? These plants don't usually get a lot of maintenance so what's working there is going to work for you.
